

SHIVAM

SOFTWARE DEVELOPER - PYTHON

Chaibasa, Jamshedpur | +91 6202633862 | shivamm2074@gmail.com | <https://www.linkedin.com/in/shivam-kumar-a41aa81b6/>

SUMMARY

Motivated and fast-learning Python enthusiast with a good understanding of programming concepts, object-oriented programming, and problem-solving. Familiar with Python fundamentals, and eager to apply and expand skills in real-world software development. Eager to contribute to real-world software development projects and continue learning in a dynamic tech setting.

EDUCATION

Bachelor of Computer Applications

Techno India University | Kolkata, West Bengal

- 8.49 CGPA

Aug 2020 - Aug 2023

Intermediate, CBSE

School of Creative Learning | Danapur, Bihar

- 70.8 %

April 2017 - April 2019

PROJECT EXPERIENCE

Real-Time Chat Application

Jan 2024 - March 2024

- Designed and built a high-performance, real-time communication platform leveraging Django Channels, Redis, and WebSocket technology, enabling instant chat functionality with a 50% improvement in message delivery speed.
- Optimized message queuing and channel layer management for high-throughput performance, laying the groundwork for future scalability and distributed deployment.

Weather Application

April 2023 - May 2023

- Developed a dynamic web application using Python, integrating the OpenWeatherMap API to deliver real-time weather data, resulting in a 40% increase in user engagement.
- Optimized API data handling by implementing efficient JSON parsing and integration, reducing loading times by 75% for end users.

Blog Website

July 2022 - Aug 2022

- Crafted a responsive and interactive user interface for a personal blog using HTML, CSS, and JavaScript, leading to a 50% increase in user engagement through enhanced navigation and UI elements.
- Leveraged Django's modular architecture and Python to implement dynamic content management, real-time comment updates, and contributing to a 75% drop in page load times and a 100% boost in site performance metrics.

SKILLS

Technical Skills

- Python, Django, Django REST Framework, MySQL.
- WebSockets, Django Channels, Redis.
- HTML, CSS, JavaScript.
- MS Word, PowerPoint, Excel.

Soft Skills

- Problem Solving & Debugging.
- Clean Code Practices.
- Time Management, Collaboration and Team Communication.

Languages

- English - Proficient
- Hindi - Native
